TAIKA PEARL GLAZES

## TIKKURILA HELPS YOU TO SUCCEED

Have you always admired the sumptuousness and splendour of baroque? Or have you been more interested in creating subtle details in your home?

Whatever taste you represent – or something in between – Tikkurila has developed Taika Pearl Paints and Glazes with endless possibilities, just for you. With Taika products, you can easily bring about impressive changes in your home, whether you want an exotic Eastern glow in your bedroom, or to sweeten your home with tiny, shimmering changes.

Taika paints will also help you succeed in interior painting. Try, for example, the contrast between a matt wall surface and a pearlescent pattern. Don't hesitate – Taika products are water-borne and economical to use.

This inspirational brochure will allow you to conjure up an inimitable atmosphere in your own home.

With Taika you can make magic!

## TAIKA CREATES A THOUSAND AND ONE DIFFERENT ATMOSPHERES

### TINTED TAIKA PEARL PAINTS

are *opaque*, full-bodied, pearlescent paints, which will make a work of art out of your home. A pearlescent paint, in all its colour variations, conjures up a hidden, more noble appearance even in the most ordinary of objects. Taika Pearl Paints are suitable both for furniture and wall surface treatment.

### TINTED TAIKA PEARL GLAZES

are *semi-transparent*, pearlescent glazes. In an instant, you can create for your home delicate wall surfaces and elegant details, which become alive when the light strikes them, or when you look at them from different directions. Because pearl glazes are semi-transparent, the colour of the primer always affects the final result. You will get the most even surface by choosing the colour of the primer as close as possible to the colour of the glaze.

Bright, pearlescent shades are obtained from the silver base of Taika Pearl Paints and Glazes and with warm, spicy shades from the gold base.

In the following pages, we will offer you “delicious colour families”, from which you can select the colour or the colour combination that best suits you. From the pictures, you’ll find examples of how to use and combine the colours in different ways.

## HOW TO USE/READ THE COLOURS IN THE TAIKA COLOUR GUIDE

<b>1. Taika Pearl Paint</b> Used as a fancy effect on furniture and wall surfaces.	<b>1</b>	<b>2. General colour</b> Suitable as the general colour for a room.
<b>3. Taika Pearl Glaze</b> Used as a fancy effect on wall surfaces painted with Tikkurila acrylate paint.	<b>3</b>	<b>4. Primer colour under glaze /effect colour</b> We recommend this colour to be used under the glaze. This same colour is also suitable for stencil painting or for other decorating purposes.

\*) PLEASE NOTE! The Glaze model is always presented on a white primer. Look for the primer recommendation in this guide, and check your choice from your retailer's colour samples!

The colours in the pictures are as close to reality as printing technology will allow!

# Brilliance

*Oriental  
mysticism*

You don't need to live in a palace  
to have the bedroom of your dreams.  
With the warm shades of Taika Pearl Paints,  
making your dreams come true is now up to you.

# Passion

Wall: Taika Pearl Glaze, shade Dione and Feelings interior paint, shade M419.

This wall was painted entirely with red Feelings interior paint. A Pearl Glaze colourwash was then applied. A rich stencil pattern was then stippled on using the same red Feelings paint. This impressive pattern was made with a shade that differs from recommended primer. Don't be afraid to try different primer colour options under the glaze.

# INSTRUCTIONS FOR USING TAIKA PEARL PAINT

## Wall surfaces, concrete and board surfaces

First apply two coats of a Tikkurila acrylate wall paint, such as Feelings, Harmony, Joker, Remontti-Ässä or Luja. Allow to dry.

### PAINTING

1. Surround the area you want to paint with masking tape. Press the inner edge of the tape down hard, to ensure a neater edge.
2. Apply two coats of Taika Pearl Paint. Use a short-pile roller.
3. Remove the tape immediately after painting.

### SPONGE STIPLING

1. Surround the area you want to paint with masking tape. Press the inner edge of the tape down hard, to ensure a neater edge.
2. Moisten a natural sponge with water and squeeze it fairly dry.
3. Wet the sponge lightly with Taika Pearl Paint and pat off the excess paint on to a piece of cardboard.
4. Stipple the sponge lightly on the surface you are painting. Turn the sponge in your hand to get a more vivid pattern.
5. Remove the tape immediately after painting.

### STENCIL PAINTING

1. Fasten the stencil to the desired place with masking tape.
2. Make a stippler out of foam plastic by making it round and fastening it with masking tape.
3. Wet the foam plastic stippler lightly in Taika Pearl Paint and pat off the excess paint on to a piece of cardboard.
4. Press the foam plastic stippler lightly against the stencil.
5. Remove the stencil immediately after you have finished

### PATTERN BRUSHING

1. Surround the area you want to paint with masking tape. Press the inner edge of the tape down hard, to ensure a neater edge.
2. Apply Taika Pearl Paint roughly with a roller, approximately 1 m<sup>2</sup> at a time. Use vertical or horizontal brush strokes on the freshly rolled area with a Polyester nylon brush.
3. Remove the masking tape immediately after painting.

### CRISS-CROSS ROLLING

1. Surround the area you want to paint with masking tape. Press the inner edge of the tape down hard, to ensure a neater edge.
2. Apply Taika Pearl Paint to the area with a roller using rough criss-cross strokes.
3. Remove the masking tape immediately after painting.

### CRISS-CROSS BRUSHING

1. Surround the area you want to paint with masking tape. Press the inner edge of the tape down hard, to ensure a neater edge.
2. Roughly apply Taika Pearl Paint with the roller, approximately 1 m<sup>2</sup> at a time. Make patterns with criss-cross brush strokes on the freshly rolled area with a Polyester nylon brush.
3. Remove the masking tape immediately after painting.

## Furniture, fittings, ornaments, wood and wood-fibre board surfaces

If you want a very smooth surface on your walls or furniture, we recommend that you spray on Taika Pearl Paint (using low-pressure spraying, and paint diluted with about 40 % water.)

### PAINTING

1. Thin Feelings Furniture Primer with about 5 – 10% water or thin Otex adhesive primer with 10–15% white spirit.
2. On small furniture and objects, apply two coats of Feelings Furniture Paint. Use plenty of paint. If you are painting a larger item, first apply plenty of the paint with a roller and then even it out with a Polyester nylon brush.
3. You can paint directly on to natural wooden surfaces with Taika Pearl Paint, applying two coats without the need of a primer. You can thin Taika the first time with 5 – 10 % water.

# INSTRUCTIONS FOR USING TAIKA PEARL GLAZE

## Wall surfaces, concrete and board surfaces

First apply two coats of a Tikkurila acrylate wall paint, such as Feelings, Harmony, Joker, Remontti-Ässä or Luja. Aim for a roller pattern that is as flat as possible. Allow to dry.

### ROLLER APPLICATION

1. Surround the area you want to paint with masking tape. Press the inner edge of the tape down hard to ensure a neater edge.
2. Apply two coats of Taika Pearl Glaze with a roller, either vertically from the bottom up, or criss-cross. Aim for a roller pattern that is as flat as possible. Use a short pile roller.
3. Remove the masking tape immediately after treatment.

### SPONGE STIPLING

1. Surround the area you want to paint with masking tape. Press the inner edge of the tape down hard, to ensure a neater edge.
2. Moisten a natural sponge with water and squeeze it fairly dry.
3. Wet the sponge lightly with Taika Pearl Glaze and pat off the excess paint on to a piece of cardboard.
4. Stipple the sponge lightly on to the surface. Turn the sponge in your hand so that the pattern becomes more vivid.
5. Remove the masking tape immediately after painting.

### CRISS-CROSS BRUSHING

1. Surround the area you want to paint with masking tape. Press the inner edge of the tape down hard, to ensure a neater edge.
2. Apply Taika Pearl Glaze with a roller in rough strokes, about 1 m<sup>2</sup> at a time. Paint patterns on to the freshly painted area with vertical, horizontal or criss-cross brush strokes with a Polyester nylon brush.
3. Remove the tape immediately after painting.

### STENCIL PAINTING

Taika Pearl Glaze is most suitable for large patterns. For small patterns we recommend Taika Pearl Paint.

1. Fasten the stencil to the desired place with masking tape.
2. Make a stippler of foam plastic by making it round and fastening it with masking tape.
3. Wet the stippler lightly in Taika Pearl Glaze and pat off the excess on to a piece of cardboard.
4. Press the stippler lightly on the stencil.
5. Remove the stencil immediately after you have finished.

### COLOURWASH

1. Surround the area you want to paint, with masking tape. Press the inner edge of the tape down hard, to ensure a neater edge.
2. First moisten a sponge with water in a separate bowl. Squeeze the excess water out of the sponge.
3. Wet the sponge with Taika Pearl Glaze and gently apply it to the wall in round, washing motions.
4. Remove the masking tape immediately after painting.

When you want a rougher structured surface, you can paint the wall surfaces first with Kevyt-Rae decorative coating. You can either apply the coating with a normal roller or make patterns on the rolled surface for example a spatula. On a structured surface, Taika Pearl Glaze should be applied with vertical brush-strokes from bottom up or with criss-cross. Further instructions can be found in the Tikkurila Pattern Painting Guide.

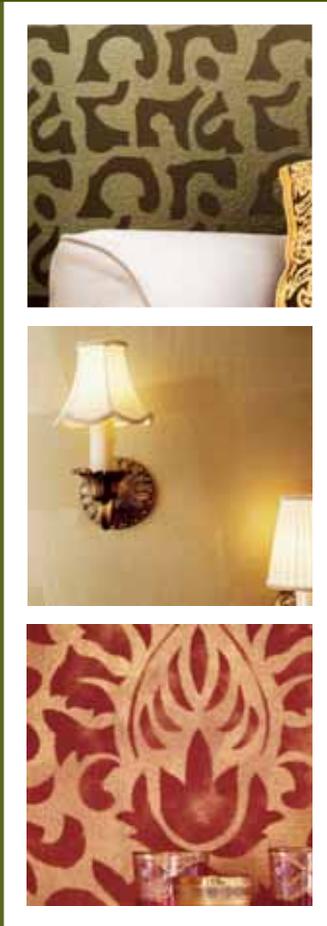

## TAIKA TWO-COLOUR PEARL GLAZES

There are also exciting two-colour Pearl Glazes in the Taika product family. They glitter and change colour, when you look at them from different directions. The two-colour effect looks different in different lighting. So pay particular attention to the room lighting. These products are available in the best-equipped paint shops.

*Colours: Gold-silver, copper-turquoise, red-green, blue-yellow, lilac-green.*
